

Compositing Supervisor

20/09/21 - 29/04/2022

We are looking for an experienced FX Supervisor to join our team. This position is an excellent opportunity to work on an exciting feature film, Puffin Rock, based on the TV series. We are looking for a person that values the power of visual storytelling and wants to help us bring the beautiful world of Puffin Rock and all its lovable characters to a bigger stage.

Requirements

- At least 3-4 more years experience in fast paced television / feature animation.
- Previous experience supervising a team required
- Aesthetic eye for colour, contrast, composition and detail
- Highly experienced in After Effects
- Ability to troubleshoot and resolve unexpected technical and creative problems
- Strong time-management skills
- Excellent verbal and written communication skills and enjoys working in a team environment.
- Strong organisational skills

Responsibilities:

- Responsible for the consistent quality of the composited scenes
- Work closely with Director and Assistant Director to help translate narrative accurately to the screen and understand the overall visual direction of the movie
- To supervise and lead the compositing team on a day to day basis. Ensuring artists are briefed, having regular work in progress reviews & are working towards delivering the strongest output in the time available
- Provide the main liaison between the animation department and other departments in the production process
- Keep the comp department on an achievable and consistent delivery schedule, answering to the Production Manager and Line Producer, making sure the team meet their assigned weekly quota and communicating the departments progress
- Develop creative setups and solutions as required using compositing tools
- Help maintain & build composite libraries
- Deliverer files to Edit that are consistent with the production standard
- Uphold established render guidelines in production shots
- Serve as the compositing point person in production specific meetings and reviews.
